Independent auditors' report on review of condensed consolidated interim financial information

To the Shareholders Islamic Arab Insurance Co. (Salama) and its subsidiaries

Introduction

We have reviewed the accompanying condensed consolidated interim statement of financial position of Islamic Arab Insurance Co. (Salama) ("the Company") and its subsidiaries (collectively referred to as "the Group") as at 30 September 2011, the condensed consolidated interim statement of comprehensive income (comprising a condensed consolidated interim statement of comprehensive income and a separate condensed consolidated interim statement of income), condensed consolidated interim statement of changes in equity and condensed consolidated interim statement of cash flows for the nine-month period then ended (the "condensed consolidated interim financial information"). Management is responsible for the preparation and presentation of this condensed consolidated interim financial information in accordance with IAS 34, 'Interim Financial Reporting'. Our responsibility is to express a conclusion on this condensed consolidated interim financial information based on our review.

Scope of Review

We conducted our review in accordance with the International Standard on Review Engagements 2410, "Review of Interim Financial Information Performed by the Independent Auditor of the Entity". A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying condensed consolidated interim financial information as at and for the nine-month period ended 30 September 2011 is not prepared, in all material respects, in accordance with IAS 34, 'Interim Financial Reporting'.

2 Basis of preparation

Notes (*continued*)

3 Significant accounting policies

Except as explained below, the accounting policies and methods of computation applied by the Group in these condensed consolidated interim financial statements are the same as those applied by the Group in its audited consolidated financial statements as at and for the year ended 31 December 2010.

The Group has adopted IAS 24 'Related Party Disclosures' (Revised) which became applicable for annual periods beginning on or after 1 January 2011, in the preparation of these condensed consolidated interim financial statements. IAS 24 amends the definition of a related party and modifies certain related party disclosure requirements for government related entities. The revised requirements under IAS 24 affect the presentation and disclosure of these condensed consolidated interim financial statements and do not have any effect on the reported amounts in the condensed consolidated interim statement of financial position and condensed consolidated interim statement of comprehensive income.

The Groups' financial risk management objectives and policies are consistent with those disclosed in the consolidated financial statements as at and for the year ended 31 December 2010.

4 Estimates

The preparation of the condensed consolidated interim financial statements requires management to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets and liabilities, income and expense. Actual results may differ from these estimates.

In preparing these condensed consolidated interim financial statements, the significant judgments made by management in applying the Group's accounting policies and the key sources of estimation uncertainty were significantly same as those that applied to the audited consolidated financial statements as at and for the year ended 31 December 2010.

5 Interim measurement

The nature of the Group's business is such that income and expense are incurred in a manner, which is not materially impacted by any form of seasonality. These condensed consolidated interim financial statements were prepared based upon an accrual concept, which requires income and expense to be recorded as earned or incurred and not as received or paid throughout the year. However, the interim results may not represent a proportionate share of the annual profits due to variability in contributions and investment income and uncertainty of claims occurrences.
